SERBS RETIRE TOWARD SOUTH

Austro-Hungarian Troops Occupy Scutari.

GARRISON FAILS TO RESIST

Official Statement Says Disarming of Montenegrins Has Been Carried On Up to the Present Without Friction and That Soldiers Are Returning to Their Homes.

Berlin, Jan. 25.—Scutari has been occupied by the Austro-Hungarian troops, according to an announcement issued by the Austro-Hungarian headquarters.

Several thousand Serbians, who formed the garrison, retired toward the south without offering any resistance.

Austro-Hungarians, continues the statement, also have occupied Niksic, Danilovgrad and Podgoritz, in Montenegro.

The disarming of the country, says the announcement, has been carried on up to the present without friction. At several places the Montenegrins have not even waited until the Austro-Hungarians appeared, but have laid down their arms before the arrival of the troops in order to return to their homes.

The population generally has received the troops in a friendly manner and in some instances with ceremony. Riots, such as occurred at Podgoritz, ceased as soon as the first Austro-Hungarian detachment appeared.

QUICK HEARING IS ASKED

South Dakota Primary Law Before Federal Supreme Court.

Washington, Jan. 25.—Chaos in the South Dakota election laws is shown by a petition filed in the supreme court to advance the hearing of the case of the Beadle county auditor to a date not later than Feb. 16, so that it may be expeditiously passed upon.

The case involves the primary election laws. Under the initiative and referendum clause of the state constitution the people passed a law in 1913 under which primaries would have been held this year on March 28. The legislature subsequently in 1915 passed another law which sets the primary on June 6.

A case was started in which it was denied that the legislature could pass a law which nullified one passed by the people themselves. The lower and supreme state courts, however, have upheld the legislative enactment, hence the case in the supreme court.

One of the occasions for haste is that expenses are being incurred under the March primary law which may go for naught if the case is not soon decided.

SEWER CAVEIN KILLS ONE

Sliding Sand Hampers Frenzied Work of Rescuers.

St. Paul, Jan. 25.—The frenzied efforts of forty men working in two shifts for more than six hours failed to save the life of E. M. Anderson, buried in a sewer cavein.

Anderson was dead when he was brought to the surface.

Rescue work was hampered by sliding sand and the falsework of the trench had to be rebuilt before workmen were permitted to remove the sand from Anderson's body.

EXPLOSION FATAL TO FOUR

Several Other Persons Are Missing and Four Injured.

Buffalo, N. Y., Jan. 25.—Four persons are known to have been killed, several are missing and four were injured in an explosion that wrecked the plant of the Kelker Blower company, manufacturers of planing mill exhausts and ventilators.

Charles Kelker, head of the firm, said that from twenty-two to twenty-five employees were in the plant and that twenty-one of them had been accounted for.

Well Known Writer Stricken.

New York, Jan. 25.—John Alexander Hill, prominent in this country and England as a writer and publisher of scientific periodicals and books, died while driving in an automobile from his home in this city. Death was due to arterial trouble. He was fifty-eight years of age.

Eminent Engineer Dies.

New York, Jan. 25.—William B. Ruggles, recently engineering adviser to the Russian government, is dead of pneumonia at his home at Bergen Point, N. J., in his fifty-fifth year. He was the inventor of an iron ore dryer extensively used on the Mesabi range.

ADMIRAL BERESFORD.
Desires British Navy
Be Given a Free Hand.

APPROVES PRESS DEMANDS

Lord Charles Beresford Wants British Navy Unshackled.

London, Jan. 25.—The demand of the press for a more stringent blockade is reinforced by a letter from Admiral Lord Charles Beresford of Methuen and Curraghmore.

"The conviction is gaining ground," says Lord Beresford, "that had the navy been allowed to act the war would have been ended some months ago. Owing to want of decision and prompt action we are in a hopeless muddle and an inextricable tangle. Unshackle the navy, however, and the result will be apparent in a few weeks."

CAMBRIDGE CLASSES HARD HIT BY WAR

Cambridge, Eng., Jan. 25.—Cambridge has practically ceased to be a domestic institution and its academic life is sustained almost entirely by alien and colonial students. This resemblance to a foreign university is intensified by the presence here of the faculty and some of the student body of the University of Louvain.

With the exception of the medical school none of the colleges has more than a handful of British students. Perhaps the greatest sufferer from the war has been Corpus Christi college which does not admit men or colored races to its rolls. This college has seven undergraduates in residence and since most of its dons are either with the military forces or doing government work of some sort the great hall is closed and students and instructors dine in their own quarters.

It is whispered that next year there will be no freshmen of the type who have made Cambridge and even should new men come there will be no old men to instruct them in the fine points of student custom which mean so much to an ancient university.

TURKISH IMPERIAL YACHT SUNK IN THE BOSPHORUS

(By United Press)

Athens, Jan. 25.—It is learned from passengers arriving from Constantinople that the Turkish imperial yacht Ethrogroal, aboard which Field Marshal von der Goltz was a passenger, was torpedoed by a French submarine in the Bosphorus four weeks ago. Field Marshal Von der Goltz was enroute to take command of the Turkish forces in the Kut region. All passengers on the vessel were rescued.

(By United Press)

Salonika, Jan. 25.—Sixteen French aeroplanes bombarded Grevoreli yesterday, killing and wounding 100 persons, and causing heavy damage at the Bulgarian camp.

MONTENEGRINS SURRENDER

(By United Press)

Berlin, Jan. 25.—The main Montenegrin army has surrendered to the Austrians. The whole of Montenegro is in the hands of the invaders.

Favors Appointment Tariff Commission

(By United Press)

Buffalo, N. Y., Jan. 25.—President Wilson favors the appointment of a tariff commission to work similar to the federal reserve board. This is on account of the trade conditions that will be altered following the European war, and it is expected further alterations will be made following peace. President Wilson does not intend to take any powers from congress, as the proposed board will report to congress.

J. J. HILL ON COMMITTEE

St. Paul Man Picked to Aid in Solving Shipping Problems.

New York, Jan. 25.—The American International corporation, formed recently to build up American export trade, is completing plans to carry on its work, according to a statement by Charles A. Stone, president of the corporation.

A committee on shipping, which is to look after the problems relating to ships and shipping, was announced by President Stone. It will be composed of W. S. Saunders, James J. Hill, J. P. Grace, John D. Ryan and Robert Dol-

LACK OF FOOD AND WATER WILL CAUSE A SURRENDER

(By United Press)

Berlin, Jan. 24.—The Canadian liner Norsman, 10,758 tons, was sunk by a submarine, says a Liverpool dispatch to the Exchange Telegraph. The vessel has been in service in the Atlantic and was presumably sunk in waters around the British Isles. If the report is true she is the largest liner excepting the Lusitania and Arabic that been sunk in British waters by a submarine.

FOUR GERMAN AIR RAIDS ON ENGLISH CHANNEL PORTS

(By United Press)

London, Jan. 25.—Four German air raids on the English channel ports in 48 hours and the bombing of numerous villages behind the French lines marks the inauguration of the new Teutonic campaign from Acre. Two German aeroplanes attacked a French seaport this morning, two hours later at Newport, eighteen miles from Dunkirk, and a short distance from the German lines a British aeroplane shot down a German aeroplane.

ADVANCED AND RETREATED

(By United Press)

Paris, Jan. 25.—In an official statement it is admitted that the German troops penetrated and advanced to the French positions in the new offensive near the mouth of the Yser. Later the enemy was driven out.

LATEST GERMAN NOTE LUSITANIA INCIDENT

(By United Press)

Washington, Jan. 25.—The latest German note on the Lusitania incident has reached the White House and was sent to the state department by Ambassador Bernstorff and was transmitted by the state department to President Wilson. It is officially stated in the announcement that it is pure supposition and unjustifiable by facts, to believe that the German note meets all the United States demands.

CARGO REVOLVERS COPPER AND BRASS TAKEN FROM BOATS

(By United Press)

London, Jan. 25.—Four hundred revolvers consigned to South American ports were taken off the Holland American liner Gerria, and fifteen tons of copper, brass and aluminum filings were taken off the Swedish steamer Urna, enroute from New York to Scandinavian ports. The officials claim the filings were falsely manifested.

SOME OBSTRUCTION TIPPED EASTLAND

Grand Rapids, Mich., Jan. 25.—That the steamer Eastland ran against some obstruction in the Chicago river, causing it to tip over, was the testimony of Dalbert Fisher, first mate on the ship at the time of the accident.

INCOME TAX LAW IS HELD TO BE VALID

(By United Press)

Washington, Jan. 25.—The supreme court has upheld the income tax law as constitutional.

Chief Justice White gave the court's decision, sweeping aside all the many objections to its constitutionality in whole or in part.

Chief Justice White announced the decision in the case of Frank R. Brubaker, stockholder of the Union Pacific railroad, who sought to enjoin the company from paying the tax on the ground that it was unconstitutional.

Most of Justice White's opinion was directed toward overruling the contention that the income tax amendment provided a hitherto unknown power of taxation. Going far into the history of income tax legislation the chief justice concluded the argument was without merit.

Germany reiterates clearly, it is said, that the torpedoing of the Lusitania was an act of reprisal for the British blockade of the German coast. Extreme regret is expressed that Americans lost their lives in the commission of the reprisal and Germany freely offers reparation in the form of indemnity.

The attention of the United States is called to the fact that such forms of reprisals have been discontinued as the result of negotiations with this government and to the fact that broad assurances for the future have been given.

The German government is understood to be most anxious to settle the matter in a manner mutually satisfactory. It is said, however, that the proposal now before the administration is considered to be final. Germany is said to hold that she has gone as far as she possibly can honorably to meet the views of the United States.

DANBURY HATTERS WILL LOSE HOMES

(By United Press)

Chicago, Jan. 25.—Five men were killed in the wreck of a Burlington freight train near Mascot, Neb., when it collided with a passenger train, according to announcement at the road headquarters.

Both engines were demolished.

Within the next two months homes and savings will be seized to satisfy the \$252,000 judgment standing against them in the celebrated Danbury hatters' case.

Mart D. Lawler, one of the original defendants, now living in New York, told of the discouragement of the aged union men. The order of sale of their homes has been approved by the federal court.

The Danbury hatters were sued for damages, the result of a strike, which was declared restraint of trade.

TRAIN KILLS THREE IN CAR

(By United Press)

Chicago Motorman Misinterprets Conductor's Signal.

Chicago, Jan. 25.—A street car conductor held up his hand in warning to his motorman of the approach of a passenger train on a grade crossing here. The warning was interpreted as a signal to go ahead and a few seconds later three men were crushed to death in the wreck of the train and street car and fifteen passengers, bleeding and terrified, were struggling to escape from the shattered car.

WOMAN'S REALM

HALL WAS CROWDED

Large Audience Listens With Delight to Entertainment of Sara Ruth Bates and Company

The fourth number of the Midland Lyceum Bureau's entertainments, booked and entertaining here under the auspices of the First Baraca class, was given Monday night at the Camel's hall.

This entertainment was advertised as Miss Sara Ruth Bates and company and is considered one of the best numbers of the course. Miss Bates has entertained here three times before but all who have ever heard her will spare neither pains nor expense to hear her again. The hall was packed, and judging from the enthusiastic applause and numerous encores it was a grand success.

Miss Bates' reading on "Preparedness" was very much appreciated. She was not speaking of the preparedness of the nation for national defense, but gave a very realistic account of an imaginary sick woman preparing her hubby for widowhood and training his future wife.

Her impersonations of the old maid describing the movies can best be described as just killing. Many of her hearers, it is reported, laughed themselves sick and others laughed until they cried. Her readings and impersonations were of such a variety as could not help pleasing any critic. Several of her selections were accompanied by sweet music given by her very able company. One of these was the poem on "If" and contained more real sound logic than is found in many a sermon, book or lecture.

Her company which consists of Septimus E. Barbour and Miss Josephine Curtis, deserve special mention. The quality of their entertainment can best be judged from the fact that they were applauded so enthusiastically and encored so persistently that they were often obliged to repeat three and sometimes four times consecutively. Both as singer and actor Mr. Barbour is unexcelled. Miss Curtis, the violinist, delighted the audience with the latest and best music and every one who appreciates the very best in entertainment surely got their money's worth last night.

A CORRECTION

In the write-up of the Musical club program in last night's Dispatch the word "supplanted" should have been "supplemented," in the following sentence:

"Several nominees for president were posted on Saturday, and these will, no doubt, be supplanted by nominations from the floor, so an interesting time is promised."

This was a typographical error much to be regretted.

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up.

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more hawking, sniffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Palm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or pasty catarrh.

At the Best

The five act drama "The Soul of a Woman," will be shown at the Best tonight. The story is as follows:

Standish, an artist, uses Mary, his wife, as the model for his painting of the Madonna. When the connoisseur and the parishioner come to inspect the picture, the Connoisseur recognizes in the model an old paramour and tells the husband so. The husband, while surprised, fails to disclose his identity, and the visitors purchase the picture. After their departure the artist upbraids his wife. She tells him of her long acquaintance with the Connoisseur and how, for five years, she believed herself legally married to him. But the husband, unforgiving, turns her and her infant son out into the street.

The mother leaves her baby on the steps of a monastery with a crucifix bearing her name. Then she enters a squalid resort known as the "House of Lost Souls," and becomes its reigning queen.

Seventeen years later the boy is a novice in the monastery. Before becoming a monk he wants to see the world. Father Anthony gives consent and the lad wanders into the "House of Lost Souls" of which his mother is now the proprietress. There the novice meets Lust, Rum, Passion, Avarice and Beauty. They try their wiles on him. Finally he succumbs to Beauty. The proprietress enters their ribald revels, takes the lad to her room and finding the crucifix, learns that he is her son. Without disclosing her identity, she tells him to go back. When he is gone, she renounces her companions. Then she falls fainting.

Eight years later the boy is a parish priest. In a fearful storm an old hag enters the church. It is the mother. She sees above the altar the painting of the Madonna for which she posed, and recognizes her son by the crucifix he still wears. The son gives the mother absolution, as the Angel of Death enters and bears off her spirit.

Snow Pudding.

Three tablespoonfuls lemon juice, one teaspoonful grated lemon rind, whites of three eggs, two tablespoonfuls granulated gelatin and one cupful sugar. Soak the gelatin in two tablespoonsful cold water ten minutes. Dissolve in the boiling water, in which the sugar is dissolved. Add the lemon juice and rind and set aside to cool. Have the whites of eggs beaten until dry, place in pan of cold water, add the gelatin very slowly, beating all the time until it begins to set. Pour into melon mold or bowl which has been rinsed with cold water, set in cold place until ready to use.

Potted Cheese.

From a pound of rich cheese cut away all the rind and with a fork mash it fine. Work into it one-quarter of a teaspoonful of cayenne, one-quarter of a teaspoonful of made mustard and from two to three tablespoonfuls of best brandy, according to the dryness of the cheese. Sufficient is needed to make it just moist enough to pack well. Work down into small jars, seal and keep in a cool place.

Prominent Professors Absent This Year

Cambridge, Jan. 25—Several of Harvard's most prominent professors will be absent next year at the opening of the 1916-17 college year. Wallace Clement Sabine of the department of physics has been appointed exchange professor to France for the next year. Kuno Francke has been granted a leave of absence for the whole of the next college year and Walter F. Dearborn, for the first half of it. Albert A. Shapira has been appointed assistant in anatomy and Samuel E. Morison, instructor in history. Frank J. Smiley, assistant in botany, has resigned. In response to a demand for military instruction, a course in military medicine in the graduate school of medicine has been established with Maj. Weston P. Chamberlain, U. S. A., as lecturer. His work will begin this February. Gifts amounting to \$43,987.84, of which the largest single item was \$10,000 from the estate of J. Arthur Beebe for the general purposes of the university and \$10,000 from Francis W. Hunnewell for the Collis P. Huntington Memorial Hospital endowment fund, were received.

"Why should not women have the same privilege as men to choose their mates? Marriage means more to a woman than to a man. She brings in a larger contribution than he; the care and upbringing of the children depend upon her faithfulness, not on his. Why should she not have the privilege of choosing?"

"The time will come, we hope, when women will be economically free and mentally and spiritually independent enough to refuse to have their food paid for by men; when women will receive equal pay for equal work and have all avenues of activity open to them and will be free to choose their own mates without shame or indelicacy and when men will not be afraid of marriage because of the financial burden, but free men and free women will marry for love and together work for the sustenance of their families. It is not too ideal a thought."

Good Reason.

SUDDEN DEATH

Caused by Disease of the Kidneys.

The close connection which exists between the heart and the kidneys is well known nowadays. As soon as kidneys are diseased, arterial tension is increased and the heart functions are attacked. When the kidneys no longer pour forth waste, uremic poisoning occurs and the person dies, and the cause is often given as heart disease, or disease of brain or lungs.

It is a good insurance against such a risk to send 10 cents for a sample package of "Anuric"—the latest discovery of Dr. Pierce. Also send a sample of your water. This will be examined without charge by expert chemists at Dr. Pierce's Invalids' Hotel, Buffalo, N. Y. When you suffer from backache, frequent or scanty urine, rheumatic pains here or there, or that constant tired, worn-out feeling, it's time to write Dr. Pierce, describe your symptoms and get his medical opinion without charge—absolutely free. This "Anuric" of Doctor Pierce's is found to be 37 times more active than lithium, for it dissolves uric acid in the system as hot water does sugar.

Simply ask for Dr. Pierce's Anuric Tablets. There can be no imitation. Every package of "Anuric" is sure to be Dr. Pierce's. You will find the signature on the package just as you do on Dr. Pierce's Golden Medical Discovery for blood and stomach.

WORRY, DESPONDENCY.

Kidney Disease is suspected by medical men when patients complain of backache, frequent or scanty urine, disturbed, too frequent, scanty or painful passage. The general symptoms are rheumatic pains or neuralgia, headaches, dizzy spells, irritability, despondency, weakness and general misery. Worry is a frequent cause and sometimes a symptom of kidney disease. Thousands have testified to immediate relief from these symptoms after using Dr. Pierce's Anuric Tablets.

Big Leaguers Play Basketball

Boston, Jan. 25—Four baseball professionals wintering in Boston have agreed to play basketball on the tentatively organized Boston Baseball Five. They are Leslie Namamaker, the big Yankee catcher; Hal Janvrin, Ham Connolly, who played third base and the outfield for the Washington Senators; and Rabbit Maranville. It is expected that there will be no difficulty in filling out the team. Coach and manager, Bob Fowler probably will try to get a game with a team similarly picked from the professional baseball men of New York city.

When the Girls' Home School at Sauk Center, comes before the next legislature asking for a sufficient appropriation for its needs and improvement it will have the moral influence and backing of the newspapers of northern Minnesota at least. The institution is backed by real merit and is managed in its new field in a manner that is credit to Mrs. Fanny F. Morse and her able assistants. The public generally do not seem to realize what a wonderful work is being done at this Sauk Center institution where 260 girls are now housed, and a better acquaintance will bring a demand for ample means to develop this worthy work.

The Minneapolis Journal political writer seems to be looking for a scramble in the Sixth district congressional contest. Nothing to it. Cheney, the people are so well satisfied with the candidacy of C. B. Buckman that it will be next to impossible for even the Journal to stir up strife. Buckman's lead over the candidates mentioned and those that have filed is so pronounced, even at this early stage in the campaign, that those who have their ear to the ground hear the rumble, and this sentiment will grow. Mr. Buckman's well known equipment for the position has easily placed him in the running and made him the people's candidate, and as such pledges of support have come to him unsolicited from every nook and corner of the district.

Judge Stanton has told the democratic party of Minnesota that he will not be their candidate for governor at the coming election. Even though the governorship were handed him on a silver platter, without the strenuous campaign and more than possibility of defeat at the hands of the republican party, he considers that his present position is preferable, and he is right. Judge Stanton stands well in the district over which he presides as one of the three judges and his continuation in that position undoubtedly remains with himself. The position of Judge is not a political one and is free from the political annoyances that accompany an election to an office where partisanship enters into the selection of the candidate. The people of this district want Judge Stanton on the bench and he is wise in his decision as to becoming a candidate for governor.

The navigation of the Mississippi river below St. Paul and Minneapolis is going to be one of the principal factors in the northwest trade in the future. The large company that will operate the traffic has been capitalized at \$9,000,000 and that the activity will be commensurate with the expenditure is vouches for. It is claimed that the return to river traffic for mercantile purposes will inaugurate a spirit of activity in the cities along the route that will be noticeable, and that this method of transportation will save hundreds of thousands of dollars to shippers every year if facilities are provided to handle the freight, and St. Louis has already bonded itself for \$235,000 to complete its river front terminals. The old time activity in river traffic will be greeted with pleasure by many of the towns along the Mississippi that have known decay since the railroads have monopolized the traffic. Even Brainerd has hopes that at some time river traffic will be a realization as far north as this city and that it will be a factor in moving the great ore output of the iron range in Crow Wing and adjoining counties.

BRAINERD GETS NEXT MEETING

Excellent Entertainment is Furnished by Hospitable Sauk Center and Her Citizens

The winter meeting of the Northern Minnesota Editorial Association which was held at Sauk Center was an occasion long to be remembered by those fortunate in being present. The entertainment of the newspaper men by the good people of Sauk Center was not the only feature of the occasion but it went a long way in making the stay pleasant and profitable, and everywhere one felt the welcome that beamed on the face of the genial mayor, the president of the commercial club, the citizens in general, and even the chief of police and the municipal judge said they would respect the wishes of the community when the keys of the city were turned over and the boys told to take it, for it was theirs during their stay, and they did not betray the confidence.

Sauk Center is a beautiful little city of 3,000 people, and its well laid out business and residence sections, together with its excellent public schools and churches bespeaks a community of prosperity and contentment. The business men of Sauk Center are hustlers, and they seem to have that sort of a spirit that begets the get-together idea which crops out in their public gatherings and in anything of a public nature that will benefit the whole community. One business man does not seem to be afraid that his competitor is going to get the best end in any of the laid out plans to benefit the community but all vie with each other in the upbuilding of the town and the community in which they live.

Asa M. Wallace was presented with a loving cup by George Erickson, of Spooner as a token of regard from the association in appreciation of his efforts during the past year as president. Mr. Wallace responding to the presentation speech. Following this came snappy talks and remarks by members of the craft which lasted until the small hours of the morning.

J. C. Morrison, president of the state association and editor of the Morris Tribune, told of the movement being made by the state organization to bring the annual convention of the National Editorial Association to Minneapolis in 1917, and later the Northern Association endorsed by resolution the movement and expressed their cooperation in the movement. The National Association will be taken for a visit to the Lake of the Woods and the Iron Range cities if they decide to come to Minnesota.

The community also believes in supporting newspapers and supporting them well, and so firmly are they convinced that a good newspaper reflects the community that they discourage the advent of a second publication in their midst at every opportunity, believing that one good paper well supported is worth more to them than two or three with which their support would have to be divided, and consequently Asa Wallace, who is the publisher and proprietor of the Sauk Center Herald, has the Reid to himself and enjoys the confidence and good will of the business men and the entire community. In return Mr. Wallace gives them one of the best weekly publications in this section of Minnesota—and they appreciate it.

On Friday afternoon the members of the association were treated to a bob sled ride to the State Home School for Girls and made an inspection visit of the grounds and buildings and were enlightened as to the methods employed by the superintendent, Mrs. F. F. Morse, and were delightfully entertained at a luncheon served in the administration building, and it can be set down as a fact that not a single member of the party left without becoming a booster for the institution.

The Dispatch plans in a future issue to give its readers a description of this institution with illustrations which will be interesting and instructive.

At the close of the meeting Hon. R. C. Dunn of Princeton, and Hon. Alva Eastman, of St. Cloud, veteran publishers and among the best known

enjoyed. Among the speakers was Hon. R. C. Dunn and he entertained the newspaper boys as only "Bob" Dunn can, and in the course of his remarks he voiced the popular sentiment by stating that his visit to the school has been a revelation to him and that the last legislature had done an injustice when it cut down the appropriation and that as a member of the senate finance committee he would work to give the school the financial aid it deserved in carrying on the good work, and he was followed by others who were in accord with him.

The following resolutions were unanimously adopted:

We the undersigned members of the Northern Minnesota Editorial Association, in annual convention assembled extend herewith our most sincere appreciation to the members of the Commercial Club, Mayor John N. McGibbon, J. F. Cooper, president of the Commercial Club, F. C. Johnson, assistant manager of the Palmer House, Mrs. W. F. Sanderson its proprietress, Dr. J. A. DuBois, the Sauk Centre Herald for the generous space devoted to our interests and the citizens of the city of Sauk Centre for their open hearted hospitality and courtesies extended; to Charles E. Vasati of the State Board of Control and Mrs. Fanny F. Morse, superintendent of the Home School for Girls for the delightful banquet and royal entertainment given.

Resolve further that the thanks of the association be tendered President Asa M. Wallace, Secretary-Treasurer A. G. Rutledge and other officers of the association who have done such splendid work during the past year in cementing the already good feeling among its members.

Resolve further, that this association endorse, and that each member extend every effort toward securing the adoption of amendment number one, which is to be submitted to the voters at the coming fall election.

Resolve further, that we pledge the efforts of this association toward securing the 1917 National Editorial convention for the city of Minneapolis and the State of Minnesota.

Resolve further, that the members of this association, having, at the various times visited the Red Lake district, the Rainy River valley and the Lake of the Woods region, and being deeply impressed with their great beauty of natural scenery and possibilities in adding to the state's attractions for tourists, we respectfully recommend to the State Highway commission the extension of the Jefferson Highway from Bemidji north to the Rainy River and westward through the villages of Spooner, Baudette and Warroad on the scenic Lake of the Woods with its ten thousand islands; through the fertile prairies of Roseau and Kittson counties to the International boundary line.

Chicago, Jan. 25.—The Republican leaders have again specialized reticence when they were asked concerning the possibility of the nomination of Roosevelt for the republican presidential candidate. Chairman Hilles said that since Roosevelt had withdrawn from three state primary ballots and had absolutely refused to allow his name to be used it would be "unfair and an insult to discuss our views of him."

ACHING KIDNEYS

We eat too much meat, which clogs Kidneys, then Back hurts and Bladder bothers you.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with citrullia, and is harmless to dash clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless, inexpensive; makes a delightful effervescent bathwater drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

APPEALED TO THE PRESIDENT

Attorney H. A. Swanson, appearing for several convicted at Duluth, forwards petitions

INDIAN TREATY LAWS BROKEN

President Wilson recently pardoned 17 citizens of Minot, convicted of same charges

Attorney H. A. Swanson, of Swanson & Swanson, appearing for a majority of the Brainerd men charged with introducing liquor into Indian treaty territory at Brainerd, has forwarded to Washington, D. C., to the president, Woodrow Wilson, lengthy petitions signed by hundreds of citizens praying for the pardon of the Brainerd men recently sentenced in federal court at Duluth.

President Wilson yesterday pardoned 17 citizens of Minot, N. D., who had been sent to serve 60 days in jail and to pay \$100 fines for introducing intoxicants into homestead land that had been the Berthold Indian reservation.

The Minot men are guilty of the same offenses and receive the same punishment as the Brainerd men, accordingly hope is entertained here that some consideration will be shown the Brainerd petitions.

STAPLES HERE FRIDAY

Brainerd High School Basketball Quint Hopes to Win From These Rivals

The Staples quint will meet the local high school team in the school auditorium on Friday next at eight o'clock. The game is expected to be a battle royal for, although no definite statements concerning the strength of the Staples team have yet been brought to notice, still all basketball fans have a "hunch" that the game against Staples will be a faster one than the Wadena-Brainerd game.

Roy C. Rebs, Brainerd's star forward, will be out of the game Friday owing to injuries received to his foot in last Friday's game against Altkin. It is hoped, however, that the valuable forward will be in form to make the trip to Wadena next week.

Owing to the poor showing made by several of the locals last Friday night, it is reported that a change will be necessitated for Friday night's game. The locals have been out in fast dashing practices this week and will be out the rest of the week working extremely hard for they believe in "preparedness" and "peace forever more."

The athletic association wishes to thank the people of Brainerd for the attendance given at the last game and urge even a larger attendance at next Friday's game as the auditorium is capable of holding a much larger audience. The locals will play Wadena on Feb. 5, the following week. The week following will be the "thriller" of the season. Watch this paper for reports of games played and see what the "thriller" will be.

MAY HAVE A CANNING FACTORY

Enthusiastic Meeting Held at the Chamber of Commerce on Monday Evening

ADDRESSED BY J. M. BRENT

Brewery Offered as a Site for the Plant, \$6,000 Stock Tentatively Subscribed

An enthusiastic meeting was held at the Chamber of Commerce Monday evening and things are so shaping themselves that a canning factory appears to be assured to Brainerd. J. M. Brent, Chicago, spoke again and described the machinery used in a canning factory, the methods of supervision, the marketing and the success attained in all factories they had started.

At the Saturday evening meeting a number of farmers were present and agreed to put in 5 to 10 acres of sweet corn each and take from 1 to 5 shares of stock at \$100 a share. Saturday evening was an inconvenient time for Brainerd business men to attend and Mr. Brent was prevailed upon to stay over and be at the Monday evening meeting.

Dr. Werner Hemstead and Edward Boppel offered the plant of the brewery for a factory to be paid in \$10,000 stock. Tentative subscriptions amounting to \$6,000 were made by others present.

With \$26,000 it is believed a three-quarter line plant can be installed, although some believe \$30,000 will be needed. Three hundred acres are required to grow corn, etc., to supply the plant. The acreage can be planted within five miles of Brainerd. In the vicinity of good roads, ten miles out of town is not too far from the factory. Distances traversed have everything to do with the freshness of the product brought to the canning station.

A committee was appointed to further investigate the proposition and to take up the same with Mr. Brent.

There is money in Brainerd and money in the country to put into meritorious projects which guarantee a moderate income on the investment. A canning company, well conducted, can make money and tends to greater cooperation between town and country.

A FOOLISH JOKE

Some Telephone "Nut" Calls up Geo. West and Others. That Buff McNaughton Was Dead

There are various kinds of telephone patrons and in the list are some who are using telephones for the first time. It is presumed one of the latter indulged in what he considered a joke by calling up George R. West at the Empress theatre and informing him that "Buff" McNaughton was dead.

Another message, probably from the same person, told Dr. E. F. Jamieson of the supposed death. Another message to Jack McNaughton reiterated the sad news.

Then the Dispatch heard of it and the story received was that "Buff" had fallen down stairs in a Brainerd hotel and killed himself.

In the meantime "Buff" was at his farm home at the lakes and was neither dead nor injured. A quiet investigation is to be made of the telephone joker and if found he will get his just deserts.

Tiger Superstitions.

In India the people believe in very many old fairy tales. One of these is that the ghost of a man killed by a tiger rides on the head of the beast that slew him to warn him of danger and to guide him to new victims. It is declared that Providence provides for the tiger's daily wants to the amount of 1 rupee C shillings a day—that is to say, if a tiger kills a calf worth 1 rupee he will not be allowed another victim for five days. Eating the flesh of a tiger is supposed to give one great strength and alertness, but the wicks must first be snuffed off the beast or his spirit will haunt the man who fed him, and he is likely to be turned into a tiger in the next world.

The first alarm was sent in about 8:45 p.m. and the truck responded and the flames supposed to have started in a bedroom, were quickly extinguished. About 11:30 a second alarm was sent in and the house burned down.

Brainerd Will Send a Large Delegation, Many in Receipt of Fine Invitations

COMMERCIAL CLUB OF SAINT PAUL

To Brainerd Citizens:

This club is taking an active participation in all live doings connected with the great Winter Sports Carnival to be held in St. Paul from January 27th, to February 5th, 1916.

This great event is going to bring thousands of visitors to town to see the great Ice Palaces, toboggan slides and various other attractions, and the Commercial club wants to offer the glad hand and its privileges and courtesies to your members or any of your citizens who come to St. Paul to visit during Carnival week.

Notify your townsmen, it will be a great sight and well worth attending and any one wanting to come to the club can call upon me and I will show them how to avail themselves of the benefits of this club during their stay in St. Paul.

Cordially yours,
C. J. UNMACK,
Secretary.

Brainerd will send a large delegation to the St. Paul Outdoor Sports Carnival which will be in progress January 27 to February 5. There will be curling, skiing, hockey, skating, tobogganing, international prize contests, and spectacular fireworks.

Brainerd's population loves outdoor sports and has many who are efficient in the sports enumerated. Prominent business and professional men of the city have received invitations printed on parchment, sealed with a large seal and carrying a key to the city and treasure them as mementos of a big-hearted hospital city, for St. Paul has the reputation of staging big events from carnivals to sports and pageants in truly magnificent style.

Brainerd takes a keen interest in the Winter Sports Carnival at St. Paul. In 1886 at the time of the first ice palace carnival in St. Paul, the Brainerd Toboggan Club went down 150 strong and with a band.

Suits were of grey and blue and long, knitted caps were worn. It was 40 below and of all the bands in the long procession, none but the Brainerd band were able to blow a tune out of their horns.

By an ingenious arrangement Brainerd kept its horns and tubas open while all the competing music froze up. Prof. Wm. Bartsch and Joseph Keheler, well known Brainerd musicians, played in the band.

An Indian dance was given at the Merchants hotel. George Hastings beating the bass drum. Doing the Chippewa dance were Dr. James L. Camp, J. P. Saunders, Wm. Seelye and Col. C. D. Johnson.

When the merriment was at its height, Tom Lowry came in and invited the whole Brainerd delegation to the bar, and the invitation was responded to with alacrity.

Next year Judge W. S. McClellan was a prominent figure in the toboggan club. The members fussed so with their attire that each had to have a suit made to order.

Col. Johnson today remarked that he was awful sorry about his suit.

In a moment of great heedlessness his wife had traded his suit for a cord of wood. However, many of the toboggan suits were still about town and it just needed a little of the spirit of 1886 to get the old club down to St. Paul to the winter carnival.

When the merriment was at its height, Tom Lowry came in and invited the whole Brainerd delegation to the bar, and the invitation was responded to with alacrity.

Mr. and Mrs. Andrew Nelson were made a present of a fine boy last Friday evening. Mother and baby are doing nicely and Andrew as well, as can be expected under the circumstances.

Oscar W. Nelson was elected vice president of the Bay Lake Progressive club and also on the program as "Potato King." However, we wish would boast for his own lake too a little.

Mrs. Robert Hubbard and children have been very ill with the grippe the past week.

Rains are so anxious to be taken care of says Miss Sherlund that if you don't go after them they come to you.

She caught one under the porch the other day which had evidently traveled far. This was a muskrat, if you please.

Mrs. Geo. Mahood has had a new kind of a nail box erected.

Mrs. Fred Peabody was a caller at the Sherlund home Thursday.

Sleigh ride parties are quite numerous our way. Two Sunday evenings and one Sunday. All report a very jolly time.

Greetings to you Friend "Bingo."

It surely is pleasant to be missed.

On account of much snow and severe weather the children of our community have not been able to attend school.

FILIPINOS MAY GET HOME RULE

Senator Hitchcock Confers With President Wilson.

WILL SEEK POWERS' PLEDGE

Amendment to the Pending Philippine Measure Invites Other Nations to Join in Guaranteeing Sovereignty of the Islands.

Washington, Jan. 25.—Granting of independence to the Philippine Islands in not less than two years and not more than four years may be favored by the Wilson administration.

Senator Hitchcock, chairman of the Senate Philippine committee, discussed with President Wilson a provision to that effect, which Senator Clarke of Arkansas had introduced as an amendment to the pending Philippine bill.

After conferring with the president Senator Hitchcock, while he would not say what the president had told him, indicated it is probable the amendment will have the administration's support. He said he would have to talk with other senators before deciding definitely whether the change would be accepted.

The president previously opposed another amendment by Senator Clarke proposing independence for the Philippines within two years.

The Clarke amendment would direct the president to invite the co-operation of the powers in a pledge to maintain the sovereignty of the islands and if such an agreement could not be reached would authorize him to guarantee on behalf of the United States alone the independence of the islands for a period of four years.

It also would give the president power to negotiate the adjustment of all property rights and reserve and acquire lands needed by the United States for naval bases and coal stations.

Under Secretary Tennant Promises to Consider Proposal.

London, Jan. 25.—Harold J. Tennant, parliamentary under secretary for war, announced in the house of commons that in the past four weeks thirteen British aeroplanes were lost on the western front and nine or ten German machines brought to the ground.

The proposal was made in the house of commons that all the members of the house should visit the front during the parliamentary recess and that arrangements should be made for their reception by the commander-in-chief.

Mr. Tennant, on replying to the suggestion, while not altogether antagonistic, thought it would prove too big an undertaking and entailing too much work for the general staff, but he promised to see what could be done.

Washington, Jan. 25.—Great Britain's "trading with the enemy" act is vigorously opposed by the United States in representations prepared for presentation to the British foreign office. They are expected to go forward immediately.

The state department considers that grave and unjustifiable injury to American commerce may follow should an attempt be made to enforce provisions affecting business in this country.

The "trading with the enemy" act prohibits persons resident in Great Britain from trading with any corporations or individuals which are engaged in supplying the Teutonic allies or have business dealings with them.

"I find in Tuxedo a good tobacco. Its fragrance and flavor are fine. I use it regularly and endorse it highly to all my friends."

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

The soothing influence of Tuxedo is due to the original "Tuxedo Process." That wonderful process puts the rich, natural leaf in a condition of perfect mildness, and makes Tuxedo the one tobacco that doesn't bite the tongue or parch the throat.

Tuxedo is as wholesome as it is delightful. There's rest and relaxation in every pipeful.

Try Tuxedo for a week.

THE AMERICAN TOBACCO COMPANY

McSwine's Gun.

A piece of iron will sink to the bottom no matter how deep the water is, because water is only slightly compressible. If water were highly compressible, as air is, the water at a great depth would be much denser and therefore heavier, and an object would sink until it reached a point at which its weight would be less than that of the water which it displaced, and there it would float, as clouds float in the atmosphere. But a cubic foot of iron weighs more than a cubic foot of water at a depth of two miles, just as it does at the surface, and therefore continues sinking until it reaches the bottom.

If thou art a man admire those who attempt great enterprises, even though they fail.—Seneca.
